PROFILE

I bring strong problem-solving, troubleshooting and analytical skills that have shown to improve websites for various clients and my creative approach to frontend web development has yielded positive feedback from both users and clients of websites I have worked on.

EXPERIENCE

UI Designer and HTML & CSS Developer - YAS

10/2019 - Current

- Delivered and designed visually compelling web designs with user-friendly UI that is cross-browser compatible and mobile responsive.
- Weekly meetings on Google Hangouts with the owner and back-end developer. Daily updates through Trello.
- Wrote the front-end HTML and CSS for created page designs using Bootstrap 4.
- Collaborated with the back-end developers on GitHub.

HTML & CSS Developer - Freelance

09/2019 - Current

- Writing of HTML and CSS code to create webpages of the design mockups.
- Fixing of layout issues.
- Testing of web pages for cross-browser compatibility.
- Work closely with the owner to ensure the development of the received design is to the correct standard.

Business Owner

06/2018 - Current

- Branding and package design, which includes the design of the labels, boxes, business cards, promotional content and products.
- Designed the website using UI/UX practices focusing on layouts, buttons, typography, colours and a responsive design using Sketch.

Front End Designer Intern - The School Bell

08/2019 - 01/2020

- Worked closely with the CEO & CMO doing weekly check-ins on Google Hangouts as well as continuous communications through email.
- Designed with the focus on guiding the user to the CTA's and improved the overall consistency of the layout.
- Researched and implemented SEO improvements.
